2. Every person who owns property which is connected to the sewer system shall annually pay a sewer charge.
3. The sewer charge is equal to the Base rate plus the Variable Rate.
4. The quarterly Base Rate equals one quarter of the total projected debt servicing costs for sanitary sewer infrastructure for the current fiscal year divided by the number of properties subject to the sewer usage charge.

6. The usage rate equals one quarter of the total projected operating costs for sanitary sewer services for the current fiscal year plus five per cent administration allowance divided by the total water consumption for the quarter by properties subject to the sewer usage charge.
7. The sewer usage charge shall be billed every quarter at the same time as water bills are rendered.
8. (1) The sewer charge is due at the same time as the water bill.  
 (2) Overdue sewage charges bear interest at the same rate charged on unpaid water charges.
